REST AND WARMTH FOR WOMEN AFTER COLD DRIVE.

REST ROOM A NECESSITY

The Many Reasons for Establishing and Maintaining Such a Convenience for Women and Children.

Of what benefit is a rest room to a community? did you ever stop to ask yourself this question? It is of much greater importance than many of the leading questions of the day in city, state and national life so far as the wives, mother, sister and children are concerned, and of far greater importance than most people are disposed to give it, says the Creston Advertiser Gazette.

It is quite apparent that few people, with possibly the exception of those directly interested, have ever carefully weighed the matter and given it the thought and consideration that should be given it and that is justly due the question. In other words, few people seem to realize even the lesser benefits and splendid advantages that a public women's and children's rest room in a community the size of Maryville affords. The truth of the matter, and the only conclusion to which any person can come after looking at the proposition from every side with unbiased and unprejudiced opinion, is that it supplies a want among those of the feminine type that never has been and that never could be supplied in any other way at as nominal a cost.

It furnishes conveniences for the women and children that they alone know how to appreciate, and conveniences that were not to be had until the rest room was established. The man cares not so much about the location at which he might go to find these necessary conveniences, and he would make no hesitancy in patronizing them no matter where they were located; but not so with the woman, nor would any man want it to be such. The woman is naturally shy and modest about such things, and the man with the proper mixture of dignity and respect in his make-up would not want to see her otherwise. And that modesty and sense of refinement always remains with a woman until she is thrown in with environments that cause her to change. The ordinary man abhors deeply enough the fact that women have to be subjected to the insult, embarrassment and humiliation which naturally falls to them without making conditions such that she cannot possibly get away from them. There is not a single husband, brother or father but what would be enthusiastic in favor of such a place as a rest room for women and children and give liberally to the support of one if he were to take the time to thoroughly weigh the matter and then give vent to his actual and candid opinion.

Some of the advantages of the rest room are warmth and rest for the mothers and children from the country after they have driven many miles to market on a winter day when the thermometer stands at zero or even lower; rest, comfort and care for the aged mothers after some urgent duty has caused them to walk eight, ten, twelve or more blocks to town, a place where she might rest before starting on the longest part of the trip—back home;—a place for country people to stop in and take their lunches which they have brought to town and which before they were obliged to spread on top of a dirty vinegar barrel in a grocery store; a place where women and children might go and spend the few spare moments that they are going to have to spend up town in reading good, wholesome magazines and books instead of remaining on the streets, and last and most important, a place where women, girls and children, and especially the working girl, might go to make her toilet, free from all humiliation and dangers that otherwise beset them. There are these chief advantages and hundreds of others that might be mentioned. The man has a hundred and one places that he can go, but they are very few and far between for the women.

Is a rest room a necessity? Do you want to deprive the women of it, when it costs so little to maintain it?

Mrs. Ray Lincoln of Burlington Junction went to Pickering Friday to visit over Sunday with her mother, Mrs. L. E. Watson.

The organization will not be fully complete until another meeting is held, when the two captains selected, Arna Moberly and James Clayton, will announce the players for the two teams they will select.

The league will be under direction of a committee of four men, composed of the Rev. E. W. Killion of the Christian church and Rev. H. J. Dueker of the M. E. church, Stant Garten and O. G. Null, who will have in charge the business affairs of the league.

The order for the ball suits and other paraphernalia has been made and the ball grounds secured of Mrs. L. E. Watson, just north of the town.

The captains think they may be able to announce the first game for Saturday afternoon.

TAKE SOIL SURVEY

WORK TO START AT BURLINGTON JUNCTION NEXT WEEK.

WILL TAKE ALL SUMMER

Complete Test of Soil From Every Part of County to Be Made by Government Expert.

E. S. Vanatta of the United States Department of Agriculture at Washington, D. C., is in Maryville this week and will start work on taking the soil survey of Nodaway county. He will go to Burlington Junction Saturday and will commence his work in that community. A man from the State University of Agriculture at Columbia will also come to this county to cooperate with Mr. Vanatta in this work. This representative from the university will not be here until June 10.

It will take all summer to take the soil survey of the county and when it is completed it will be written in bulletin form and also maps made for the use of the agricultural department at Washington and also for the state agricultural department. The bulletins and maps will also be furnished free to anyone asking for them. When this survey is taken, then the agricultural department will know the condition of the soil here and how it can be used to the best advantage and what changes shuld be made to get the best results.

Soil from every section of land in the county will be examined and classified as to its origin, the formation, the texture, the color, and the depth. A description of the soil will be made, its agricultural conditions, the apparent needs of the soil, and suggestions made as to changes.

The soil survey is being taken all over the United States. In Missouri, the survey has been taken in thirty counties, the Atchison county survey being among the first in the state, having been taken about three years ago. Mr. Vanatta has been taking these surveys for the government for the past two years, and three years before that was connected with the state agricultural department. He has just recently completed a soil survey for Ashley county, Arkansas, and came from that county to Maryville to do the work here.

SHOCKED BY LIGHTNING.

Mrs. J. D. Montgomery of Near Skidmore Received Serious Shock While Talking Over Phone.

The Sidmore New Era of this week gives account of the serious experience of Mrs. J. D. Montgomery, who recently moved from Maryville to near Skidmore, which is as follows:

"Mrs. J. D. Montgomery was quite badly shocked by lightning Monday morning while talking over the telephone. The lightning striking the wire, ran into the phone over which she was talking and knocked her down. The concussion was so severe that she was deaf for an hour after receiving the shock. The lightning burned the wire off in a hundred different places from one inch to twelve inches long and would have undoubtedly killed Mrs. Montgomery, but the force was checked by a ground wire at the house.

"This incident reminds us all how extremely dangerous a telephone is during an electric shower and should be a warning against using them at that time when it can possibly be avoided.

"There were over two hundred feet of wire burned up, many short pieces were litterly melted and welded together as they fell to the ground. Nothing could have saved Mrs. Montgomery's life had there been no ground wire.

TARKIO COLLEGE WON.

Defeated the Normal Team at Tarkio on Thursday Afternoon—The Score Was 3 to 2.

One of the best games the Normal team has played this season was at Tarkio on Thursday afternoon when they played the Tarkio College team. The score was 3 to 2 in favor of Tarkio. There were several sensational plays pulled off by the Normalites, including three double plays. The principal feature was a catch made by Brittain in deep center, when he cut off an apparent home run and doubled a runner at third. Wilson for the Normal struck out nine men.

In the third inning, McKee was hit by a pitched ball, Wilson got a two-base hit and both scored on Bird's single.

In the sixth inning, Perrin for the Normal retired on account of a sore hand, and this was directly responsible for the result of the game, for the substitute first baseman let an easy grounder get away from him, resulting in two Tarkio scores. Perrin's hand will be well enough for today's game at Peru, Nebr., with the Peru Normal team and for the game Saturday at Amity with the Amity College team.

ROAD TO ALBANY

RAVENWOOD WANTS IT—SENDS DELEGATION TO PRESENT CLAIM.

GENTRY FAVORS ROUTE

Clarinda, Braddyville and Clearmont Want the Iowa Road and Will Send Delegations Next Week.

Ravenwood is after the county seat highway from this city to Albany and quite a delegation from that town came to Maryville Friday to present their claims to the county highway commission. The members of the commission, John Clary, E. H. Bainum and S. H. Conlin, were in attendance and listened attentively to what the Ravenwood people had to say in favor of their road. Inthe party from that town were: Rev. S. E. Hoover, Jesse Spoonemore, Isaac Barton, W. T. Jackson, I. H. Goodson, A. H. Stonebruner, E. F. Bishop, F. H. Casteel, D. J. Hutserson, W. L. Rhodes, Wiley Slagle, S. P. Ross, Harley Nelson, Lincoln Grantham, Wm. Slagle, D. M. Bishop and W. A. Conn.

The Gentry county commission seem to be in favor of the road by the way of Ravenwood. At least, a map received from that commission by the Nodaway county commission was marked through Gentry county to Sweet Home and then to Ravenwood.

A number of delegations will probably be in attendance before the commission next week. Quite a party from Clarinda, Braddyville and Clearmont will be here the first of the week, as that country want the state line road to go that way. Then other towns will send representatives here to urge their claims.

The commission will not inspect any of the roads entered for county seat highways until they are in better shape. Owing to the rainy weather the past week, the roads are not in good condition.

Beautiful Ola Humphrey Has a Vista of Royal Attainment Stretching Out Before Her.

Mr. J. M. Willis of this city has received a recent copy of the Burlington Hawkeye, Burlington, Iowa, containing a story of the life of an Iowa girl, who was born in Louisa county, in which Burlington is located, that will be of attractive interest to Maryville people, because the heroine of the story, which reads like a fairy tale, is a niece of the late James Paschal of Maryville, and a cousin of Mrs. Kate Paschal Norton and Misses Maggie and Emma Paschal of St. Louis.

The niece in question is Princess Ibraham Hassan, now in line to the throne of Egypt, once occupied by Cleopatra and the Pharoah kings, who was beautiful Ola Humphrey of Columbus City, Iowa.

The story of her life as given in the Burlington Hawkeye is as follows:

Princess Ibraham Hassan was Miss Ola Humphrey, an Iowa girl, who now is stated to be in line of ascendency to the throne of Egypt, once occupied by Cleopatra, and the Paraoh king. Miss Humphrey was born in Louisa county, Iowa, and spent her young girlhood in Columbus City, where she gained an education. Her father was Thomas Humphrey and her mother was a daughter of Mr. William Paschal of Columbus City. She has several uncles living in this part of Iowa. William Paschal has recently moved to Burlington to live, and carries on a successful auctioneering business. Another uncle is Rufus P. Paschal, who is also doing an expert auctioneering stunt in this county. A third uncle is E. L. Paschal of Wapello, Ia., who is a railway mail clerk on the Rock Island running between Burlington and St. Paul.

These men have clear memories of Princess Hassan, their niece, although they have not seen her for some time. She removed with her parents and a little brother, Ora Humphrey, to Oakland, Cal. There her father died. But she and her brother and mother continued to reside in that city.

Some years after going to Oakland Miss Ola took up the study of elocution in that city, and studied under good masters there and in other Pacific coast cities. Her success was so satisfactory that she was enabled to go to Boston, where she took up the study of dramatic art and made herself so proficient that in a little while she was filling acceptably prominent roles in the leading dramatic companies of the country. She was for a time the leading lady in "The Girl I Left Behind Me." And she played a season with Walker Whiteside, being seen in New York, Chicago, St. Louis and the Pacific coast cities as well as in many other large cities of the country. Her brother, Ora, also became a creditable actor.

She afterwards went with a company to Australia, playing there for a season, and then on to London, Paris and other European cities.

It was in the course of this latter tour that Miss Humphrey met the Egyptian prince, Ibraham Hassan, who fell in love with her, and after an impetuous courtship won her for a bride. The marriage occurred about three years ago. The happiness of the match was of short duration. The Princess Hassan could not accustom herself to the manners of the Oriental people, and soon returned to her mother in Oakland, Cal.

After a brief visit with her parent, the princess returned to Paris and began preparations to return to her work on the stage. Hearing of this intention, the royal family of Egypt became very active in an effort to prevent, if possible, this disgrace to their family. Even the Khedive took up the matter personally, and recently when on his way through Paris, traveling incognito, to Berlin, he called upon the princess, whose husband is his first cousin. He pointed out to her that now that she had been incorporated into the royal family of Egypt, it would bring everlasting disgrace upon them were she to return to the stage, no matter how great her dramatic ability. He also pointed out to her the fact that she was the only American princess in the world at present and then played his trump card by informing her that there was a very great possibility that she might in time become the reigning sovereign of Egypt and occupy the ancient throne of the Pharaohs made especially historical by the brilliant and beautiful Queen Cleopatra.

This last statement astonished the Iowa princess and she told the Khedive that she would have to think the matter over. She said she could not consent to live as the Oriental women do, and that if she decided to renounce the stage and return to the royal life, she must have not only a palace in Egypt, but also one in London and Paris. These considerations did not appear to worry the Khedive in the least. As he is worth many millions of dollars, there is little doubt that he will provide for the wishes of the Iowa girl and give her a royal surrounding in the cities of her choice that will fill her fondest desires.

Meanwhile the uncles of this little princess will go on looking after Uncle Sam's mail business, auctioning off the humble goods of the people who are moving to the golden brick climate of California, and not concerning themselves in the least over the fact that their family blood races through the veins of a near queen of the Pharaohs.

Dynamiting Bed of Nodaway.

An expert has been employed by C. H. Sternberg & Sons to dynamite the bed of the Nodaway channel where it is holding the current. The man has been at work on the dam near the Walker farm, but was compelled to suspend operations on account of the high stage of the river, which has been rising fast. Nitro-glycerine and dynamite are being used to loosen the dirt. Ed and Herman Sternberg were here this week and the drainage board met yesterday morning and appointed Wm. Blackford and Guy Clary as a committee to decide on the proposition made by the Sternbergs last week. It is though now that the work will be finished without further delay.—Burlington Junction Post.

AFTER COUGHING MONTHS

Brooklyn, N. Y., Woman Found Relief in Vinol.

Did you ever cough for a week? Then just think how distressing it must be to have a cough hang on for three months.

Mrs. Maria Primrose of 87 Newell street, Brooklyn, N. Y., says: "I had a very heavy cold which settled into a chronic cough, which kept me awake nights for fully three months, and felt tired all the time because my rest was broken. The effect of taking your cod liver and iron remedy, Vinol is that my cough is gone. I can now get a good night's rest and I feel much stronger in every way."

It is the combined action of the medicinal elements of cod's livers aided by the blood-making and strength-creating properties of tonic iron which makes Vinol so efficient for chronic coughs, colds and bronchitis—at the same time building up the weakened, run-down system.

Try a bottle of Vinol with the understanding that your money will be returned if it does not help you.—Orear-Henry Drug Co., Maryville, Mo. —Advertisement.

REPUBLICANS ARRANGE CAUCUS

Senators Name Committee to Meet House Leaders.

CONCILIATORS ALSO MEET.

Sherman Offers Measure Providing for Election of Delegates—Choice to Be Made According to Vote Cast at Preceding Polling.

Washington, May 23.—With Republican senators urging a joint senate and house caucus for immediate reorganization of the congressional campaign committee to seek the reclamation of Republican power in congress next year; with Progressive Republicans conferring on plans to reconcile the divided party and members of the national executive committee assembling for a meeting here tomorrow, Washington became a beehive of Republican activity. Most significant since the defeat at the polls last fall was the conference of the Republican and Progressive senators to reinstate the Republican campaign committee, which house leaders have futilely attempted for several weeks. Thirty-one senators attended the conference presided over by Senator Gallinger and with almost unanimous approval a committee of five was appointed to confer with house leaders with a view to holding a joint caucus as soon as possible to clear away the party difficulties.

It was the prevailing opinion of the senatorial conference that the campaign committee should be reorganized at once, with representation from the senate as well as the house, that headquarters should be established, a publicity campaign inaugurated and definite campaign policies outlined as early as possible.

Progressives to Outline Wishes.

The conciliators appointed as a result of the Chicago Progressive conference a few weeks ago met with Senator Cummins today to plan for presentation of their plan to the national executive committee to meet tomorrow.

The committee will outline to the executive committee the desires of the Progressive Republicans for a convention this fall to reorganize the party, and for its machinery relating to the selection of delegates and conduct of contests.

In line with these ideas, Senator Sherman of Illinois would provide that delegates to the national conventions of all parties be elected at primaries.

Under its terms the delegates would be chosen according to the vote cast at the preceding election for candidates of the respective parties, and state primary laws would govern.

PROBE DISHWASHERS' WAGES

St. Louis Civic Uplift Club Pays Women Five Dollars a Week.

St. Louis, May 23.—The senate wage investigation committee inquired into the wages paid to women dishwashers employed at the City club, a social organization. Floyd J. Sloan, manager of the club, testified that he did not concern himself as to the personal welfare of the dishwashers. The club, he said, has a membership of 1,000 business and professional men and its civic purpose is the general betterment of mankind.

"Being a philanthropic organization," asked Lieutenant Governor Painter, "did your organization never consider the welfare of the women employees?"

"No, sir," was the reply.

"And that is a club where the president, vice president, members of congress and other distinguished visitors are invited to make addresses?"

"Yes."

"What do you think would be a fair price for a self-supporting woman to earn?"

"Seven fifty a week."

"And you pay only five?"

"Yes, but we give them two meals of better food than they could afford to buy themselves."

"These diswashers are nothing to you but so much flesh and blood that you can buy for so much a day?" asked Senator Wilson.

"Yes," replied Sloan.

ALLS OVERBOARD WHILE IN A FIT OF COUGHING.

Jacksonville, Fla., May 23.—E. O. Painter, a wealthy fertilizer manufacturer and fruit grower, taken with a fit of coughing while crossing St. John's river on a ferry, fell overboard and was drowned. He was said to have carried life insurance totaling $500,000.

Falls Eighteen Stories Into Crowd.

DON'T FEED CREAM TO THE CALVES

If you are skimming your milk by any setting or dilution method or are using an inferior or worn out cream separator you are surely feeding a lot of butter-fat to your calves and pigs that is worth from 25 to 30 cents a pound.

You may think this is too small a loss to amount to much, but when you figure that it happens twice a day, 365 days a year, you will find that a De Laval Separator would save its cost every six months over any kind of "gravity" skimming and every year over any inferior or worn out separator.

Get a clean skimming DE LAVAL Cream Separator

as soon as you can and get all the money that is coming to you from the product of your cows.

We can make you a liberal allowance for your present separator, if you have one, and, if more convenient for you, can also arrange for a partial payment at time of purchase and balance on easy payments.

If you want to see for yourself just how much more cream you can get with a De Laval let us set up a machine for you and have you try it out for yourself. Just 'phone or drop us a postal and we will be glad to bring a machine out to your place.

PROTESTS AGAINST INCOME TAX FAIL

No Changes Likely to Be Proposed by Democratic Caucus.

Washington, May 23.—No amendment to the income tax section of the Underwood tariff bill is likely to be proposed by the senate committee or Democratic caucus, according to an announcement by leaders who have consideration of that part of the bill in hand.

The committee room occupied by Senators Williams, Shively and Gore, who have charge of the income tax section, is piled high with protests and suggestions from many sources, but the measure is believed to have been well handled in the house and the objections made to it in its original form are thought to have been sufficiently met by amendments passed by the house.

Among the loudest protests coming now are those from mutual insurance companies conducted for profit, but the house amended the original bill as relating to insurance companies and insurance policies and the senators on the finance committee after a study of the bill believe that it is sound. Complaints from railroad and other holding companies that the law will tax them twice on dividends paid, are reported to have been held unsound by members of the committee.

Objects to Insurance Feature.

Omaha, May 23.—"Without attacking the principle of the income tax, which has been accepted and ratified by the people, the insurance features of the Underwood bill should be changed so as to make it perfectly clear and understandable," according to Ralph W. Breckenridge, chairman of the insurance committee of the American Bar association.

Action Asked to Sue Missouri Pacific.

Washington, May 23.—Representative Neeley of Kansas has submitted to Attorney General McReynolds a formal request that the government proceed at once to collect from the Missouri Pacific railroad $43,362,346 due the government for subsidized bonds advanced to aid in the construction of the central branch of the Missouri Pacific railroad in Kansas.

The graduates are: Maysel Hinkle of Lincoln school, Fern Ivie and Dollie Wilson of Guilford, Orvis Wallace of Pleasant View school and Rose Anna Meyer of McCann school.

How Any Woman Can Cure Indigestion.

Most stomach remedies are makeshifts—they give relief but afterward the stomach is just as weak, just as unable to digest the food as it was before.

Women especially should not depend on relievers only. MI-O-NA Stomach Tablets not only give prompt relief but they put strength and elasticity into the stomach walls and cause the digestive juices to act naturally.

They do more; they force the digestive organs to supply the blood with pure nourishment which is carried to the muscles, nerves, brain and skin. Result: healthy muscles, strong nerves, clear head, and clean skin. Orear-Henry Drug Co. guarantees MI-O-NA Stomach Tablest—50 cents.—Advertisement.

Notice to Contractors.

Flynt, Superintendent of Construction, will receive sealed bids until noon, June 2d, 1913, for the erection of a brick filter house at the water plant and also for building an addition to the present pump house and repairing the roof of same.

Each bid to be accompanied by a certified check for an amount equal to 2 per cent of the bid payable to James Colby, City Treasurer, said check to be forfeited in case the bidder fails to enter into a contract if his bid is accepted.

Plans and specifications may be obtained at the office of the undersigned at the City Hall.

The Board of Public Works reserves the right to reject any or all of the bids.

FRECKLE-FACE

Sun and Wind Bring Out Ugly Spots. How to Remove Easily.

Here's a chance, Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable dealer that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of othine—double strength from your druggist and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask the druggist for the double strength othine as this is the prescription sold under guarantee of money back if it fails to remove freckles.

HAS ADVANTAGES

REST AND WARMTH FOR WOMEN AFTER COLD DRIVE.

REST ROOM A NECESSITY

The Many Reasons for Establishing and Maintaining Such a Convenience for Women and Children.

Of what benefit is a rest room to a community? did you ever stop to ask yourself this question? It is of much greater importance than many of the leading questions of the day in city, state and national life so far as the wives, mother, sister and children are concerned, and of far greater importance than most people are disposed to give it, says the Creston Advertiser Gazette.

It is quite apparent that few people, with possibly the exception of those directly interested, have ever carefully weighed the matter and given it the thought and consideration that should be given it and that is justly due the question. In other words, few people seem to realize even the lesser benefits and splendid advantages that a public women's and children's rest room in a community the size of Maryville affords. The truth of the matter, and the only conclusion to which any person can come after looking at the proposition from every side with unbiased and unprejudiced opinion, is that it supplies a want among those of the feminine type that never has been and that never could be supplied in any other way at as nominal a cost.

It furnishes conveniences for the women and children that they alone know how to appreciate, and conveniences that were not to be had until the rest room was established. The man cares not so much about the location at which he might go to find these necessary conveniences, and he would make no hesitancy in patronizing them no matter where they were located; but not so with the woman, nor would any man want it to be such. The woman is naturally shy and modest about such things, and the man with the proper mixture of dignity and respect in his make-up would not want to see her otherwise. And that modesty and sense of refinement always remains with a woman until she is thrown in with environments that cause her to change. The ordinary man abhors deeply enough the fact that women have to be subjected to the insult, embarrassment and humiliation which naturally falls to them without making conditions such that she cannot possibly get away from them. There is not a single husband, brother or father but what would be enthusiastic in favor of such a place as a rest room for women and children and give liberally to the support of one if he were to take the time to thoroughly weigh the matter and then give vent to his actual and candid opinion.

Some of the advantages of the rest room are warmth and rest for the mothers and children from the country after they have driven many miles to market on a winter day when the thermometer stands at zero or even lower; rest, comfort and care for the aged mothers after some urgent duty has caused them to walk eight, ten, twelve or more blocks to town, a place where she might rest before starting on the longest part of the trip—back home;—a place for country people to stop in and take their lunches which they have brought to town and which before they were obliged to spread on top of a dirty vinegar barrel in a grocery store; a place where women and children might go and spend the few spare moments that they are going to have to spend up town in reading good, wholesome magazines and books instead of remaining on the streets, and last and most important, a place where women, girls and children, and especially the working girl, might go to make her toilet, free from all humiliation and dangers that otherwise beset them. There are these chief advantages and hundreds of others that might be mentioned. The man has a hundred and one places that he can go, but they are very few and far between for the women.

Is a rest room a necessity? Do you want to deprive the women of it, when it costs so little to maintain it?

Mrs. Ray Lincoln of Burlington Junction went to Pickering Friday to visit over Sunday with her mother, Mrs. L. E. Watson.

BALL LEAGUE AT PICKERING.

Preliminary Steps Taken Thursday in Mass Meeting at the Christian Church.

The Pickering Sunday School baseball league was partially organized Thursday afternoon at a mass meeting held at the Christian church.

The organization will not be fully complete until another meeting is held, when the two captains selected, Arna Moberly and James Clayton, will announce the players for the two teams they will select.

The league will be under direction of a committee of four men, composed of the Rev. E. W. Killion of the Christian church and Rev. H. J. Dueker of the M. E. church, Stant Garten and O. G. Null, who will have in charge the business affairs of the league.

The order for the ball suits and other paraphernalia has been made and the ball grounds secured of Mrs. L. E. Watson, just north of the town.

The captains think they may be able to announce the first game for Saturday afternoon.

There's lots of enthusiasm among the baseball devotees of Pickering, while the good right hand of every young player in town is tingling for a try out.

TAKE SOIL SURVEY

WORK TO START AT BURLINGTON JUNCTION NEXT WEEK.

WILL TAKE ALL SUMMER

Complete Test of Soil From Every Part of County to Be Made by Government Expert.

E. S. Vanatta of the United States Department of Agriculture at Washington, D. C., is in Maryville this week and will start work on taking the soil survey of Nodaway county. He will go to Burlington Junction Saturday and will commence his work in that community. A man from the State University of Agriculture at Columbia will also come to this county to cooperate with Mr. Vanatta in this work. This representative from the university will not be here until June 10.

It will take all summer to take the soil survey of the county and when it is completed it will be written in bulletin form and also maps made for the use of the agricultural department at Washington and also for the state agricultural department. The bulletins and maps will also be furnished free to anyone asking for them. When this survey is taken, then the agricultural department will know the condition of the soil here and how it can be used to the best advantage and what changes shuld be made to get the best results.

Soil from every section of land in the county will be examined and classified as to its origin, the formation, the texture, the color, and the depth. A description of the soil will be made, its agricultural conditions, the apparent needs of the soil, and suggestions made as to changes.

The soil survey is being taken all over the United States. In Missouri, the survey has been taken in thirty counties, the Atchison county survey being among the first in the state, having been taken about three years ago. Mr. Vanatta has been taking these surveys for the government for the past two years, and three years before that was connected with the state agricultural department. He has just recently completed a soil survey for Ashley county, Arkansas, and came from that county to Maryville to do the work here.

Succumbed Friday Morning After Six Months' Illness of Dropsy and Paralysis.

William Spencer Trewett, for twenty years a resident of Maryville, died Friday morning at 1:30 o'clock at his home, 316 South Walnut street, after a six months' illness of dropsy and paralysis. The funeral services will be held at 2 o'clock Saturday afternoon at the Buchanan street Methodist church, conducted by the pastor, Rev. J. D. Randolph. Burial in Miriam cemetery.

SHOCKED BY LIGHTNING.

Mrs. J. D. Montgomery of Near Skidmore Received Serious Shock While Talking Over Phone.

The Sidmore New Era of this week gives account of the serious experience of Mrs. J. D. Montgomery, who recently moved from Maryville to near Skidmore, which is as follows:

"Mrs. J. D. Montgomery was quite badly shocked by lightning Monday morning while talking over the telephone. The lightning striking the wire, ran into the phone over which she was talking and knocked her down. The concussion was so severe that she was deaf for an hour after receiving the shock. The lightning burned the wire off in a hundred different places from one inch to twelve inches long and would have undoubtedly killed Mrs. Montgomery, but the force was checked by a ground wire at the house.

"This incident reminds us all how extremely dangerous a telephone is during an electric shower and should be a warning against using them at that time when it can possibly be avoided.

"There were over two hundred feet of wire burned up, many short pieces were litterly melted and welded together as they fell to the ground. Nothing could have saved Mrs. Montgomery's life had there been no ground wire.

To San Antonio for His Health.

TARKIO COLLEGE WON.

Defeated the Normal Team at Tarkio on Thursday Afternoon—The Score Was 3 to 2.

One of the best games the Normal team has played this season was at Tarkio on Thursday afternoon when they played the Tarkio College team. The score was 3 to 2 in favor of Tarkio. There were several sensational plays pulled off by the Normalites, including three double plays. The principal feature was a catch made by Brittain in deep center, when he cut off an apparent home run and doubled a runner at third. Wilson for the Normal struck out nine men.

In the third inning, McKee was hit by a pitched ball. Wilson got a two-base hit and both scored on Bird's single.

In the sixth inning, Perrin for the Normal retired on account of a sore hand, and this was directly responsible for the result of the game, for the substitute first baseman let an easy grounder get away from him, resulting in two Tarkio scores. Perrin's hand will be well enough for today's game at Peru, Nebr., with the Peru Normal team and for the game Saturday at Amity with the Amity College team.

ROAD TO ALBANY

RAVENWOOD WANTS IT—SENDS DELEGATION TO PRESENT CLAIM.

GENTRY FAVORS ROUTE

Clarinda, Braddyville and Clearmont Want the Iowa Road and Will Send Delegations Next Week.

Ravenwood is after the county seat highway from this city to Albany and quite a delegation from that town came to Maryville Friday to present their claims to the county highway commission. The members of the commission, John Clary, E. H. Bainum and S. H. Conlin, were in attendance and listened attentively to what the Ravenwood people had to say in favor of their road. Inthe party from that town were: Rev. S. E. Hoover, Jesse Spoonemore, Isaac Barton, W. T. Jackson, I. H. Goodson, A. H. Stonebruner, E. F. Bishop, F. H. Casteel, D. J. Hutterson, W. L. Rhodes, Wiley Slagle, S. P. Ross, Harley Nelson, Lincoln Grantham, Wm. Slagle, D. M. Bishop and W. A. Conn.

The Gentry county commission seem to be in favor of the road by the way of Ravenwood. At least, a map received from that commission by the Nodaway county commission was marked through Gentry county to Sweet Home and then to Ravenwood.

A number of delegations will probably be in attendance before the commission next week. Quite a party from Clarinda, Braddyville and Clearmont will be here the first of the week, as that country want the state line road to go that way. Then other towns will send representatives here to urge their claims.

The commission will not inspect any of the roads entered for county seat highways until they are in better shape. Owing to the rainy weather the past week, the roads are not in good condition.

Beautiful Ola Humphrey Has a Vista of Royal Attainment Stretching Out Before Her.

Mr. J. M. Willis of this city has received a recent copy of the Burlington Hawkeye, Burlington, Iowa, containing a story of the life of an Iowa girl, who was born in Louisa county, in which Burlington is located, that will be of attractive interest to Maryville people, because the heroine of the story, which reads like a fairy tale, is a niece of the late James Paschal of Maryville, and a cousin of Mrs. Kate Paschal Norton and Misses Maggie and Emma Paschal of St. Louis.

The niece in question is Princess Ibraham Hassan, now in line to the throne of Egypt, once occupied by Cleopatra and the Pharoah kings, who was beautiful Ola Humphrey of Columbus City, Iowa.

The story of her life as given in the Burlington Hawkeye is as follows:

Princess Ibraham Hassan was Miss Ola Humphrey, an Iowa girl, who now is stated to be in line of ascendency to the throne of Egypt, once occupied by Cleopatra, and the Paraoh king. Miss Humphrey was born in Louisa county, Iowa, and spent her young girlhood in Columbus City, where she gained an education. Her father was Thomas Humphrey and her mother was a daughter of Mr. William Paschal of Columbus City. She has several uncles living in this part of Iowa. William Paschal has recently moved to Burlington to live, and carries on a successful auctioneering business. Another uncle is Rufus P. Paschal, who is also doing an expert auctioneering stunt in this county. A third uncle is E. L. Paschal of Wapello, Ia., who is a railway mail clerk on the Rock Island running between Burlington and St. Paul.

These men have clear memories of Princess Hassan, their niece, although they have not seen her for some time. She removed with her parents and a little brother, Ora Humphrey, to Oakland, Cal. There her father died. But she and her brother and mother continued to reside in that city.

Some years after going to Oakland Miss Ola took up the study of elocution in that city, and studied under good masters there and in other Pacific coast cities. Her success was so satisfactory that she was enabled to go to Boston, where she took up the study of dramatic art and made herself so proficient that in a little while she was filling acceptably prominent roles in the leading dramatic companies of the country. She was for a time the leading lady in "The Girl I Left Behind Me." And she played a season with Walker Whiteside, being seen in New York, Chicago, St. Louis and the Pacific coast cities as well as in many other large cities of the country. Her brother, Ora, also became a creditable actor.

She afterwards went with a company to Australia, playing there for a season, and then on to London, Paris and other European cities.

It was in the course of this latter tour that Miss Humphrey met the Egyptian prince, Ibraham Hassan, who fell in love with her, and after an impetuous courtship won her for a bride. The marriage occurred about three years ago. The happiness of the match was of short duration. The Princess Hassan could not accustom herself to the manners of the Oriental people, and soon returned to her mother in Oakland, Cal.

After a brief visit with her parent, the princess returned to Paris and began preparations to return to her work on the stage. Hearing of this intention, the royal family of Egypt became very active in an effort to prevent, if possible, this disgrace to their family. Even the Khedive took up the matter personally, and recently when on his way through Paris, traveling incognito, to Berlin, he called upon the princess, whose husband is his first cousin. He pointed out to her that now that she had been incorporated into the royal family of Egypt, it would bring everlasting disgrace upon them were she to return to the stage, no matter how great her dramatic ability. He also pointed out to her the fact that she was the only American princess in the world at present and then played his trump card by informing her that there was a very great possibility that she might in time become the reigning sovereign of Egypt and occupy the ancient throne of the Pharaohs made especially historical by the brilliant and beautiful Queen Cleopatra.

This last statement astonished the Iowa princess and she told the Khedive that she would have to think the matter over. She said she could not consent to live as the Oriental women do, and that if she decided to renounce the stage and return to the royal life, she must have not only a palace in Egypt, but also one in London and Paris. These considerations did not appear to worry the Khedive in the least. As he is worth many millions of dollars, there is little doubt that he will provide for the wishes of the Iowa girl and give her a royal surrounding in the cities of her choice that will fill her fondest desires.

Meanwhile the uncles of this little princess will go on looking after Uncle Sam's mail business, auctioning off the humble goods of the people who are moving to the golden brick climate of California, and not concerning themselves in the least over the fact that their family blood races through the veins of a near queen of the Pharaohs.

Dynamiting Bed of Nodaway.

An expert has been employed by C. H. Sternberg & Sons to dynamite the bed of the Nodaway channel where it is holding the current. The man has been at work on the dam near the Walker farm, but was compelled to suspend operations on account of the high stage of the river, which has been rising fast. Nitro-glycerine and dynamite are being used to loosen the dirt. Ed and Herman Sternberg were here this week and the drainage board met yesterday morning and appointed Wm. Blackford and Guy Clary as a committee to decide on the proposition made by the Sternbergs last week. It is though now that the work will be finished without further delay.—Burlington Junction Post.

AFTER COUGHING MONTHS

Brooklyn, N. Y., Woman Found Relief in Vinol.

Did you ever cough for a week? Then just think how distressing it must be to have a cough hang on for three months.

Mrs. Maria Primrose of 87 Newell street, Brooklyn, N. Y., says: "I had a very heavy cold which settled into a chronic cough, which kept me awake nights for fully three months, and felt tired all the time because my rest was broken. The effect of taking your cod liver and iron remedy, Vinol is that my cough is gone. I can now get a good night's rest and I feel much stronger in every way."

It is the combined action of the medicinal elements of cod's livers aided by the blood-making and strength-creating properties of tonic iron which makes Vinol so efficient for chronic coughs, colds and bronchitis—at the same time building up the weakened, run-down system.

Try a bottle of Vinol with the understanding that your money will be returned if it does not help you.—Orear-Henry Drug Co., Maryville, Mo.

REPUBLICANS ARRANGE CAUCUS

Senators Name Committee to Meet House Leaders.

CONCILIATORS ALSO MEET.

Sherman Offers Measure Providing for Election of Delegates—Choice to Be Made According to Vote Cast at Preceding Polling.

Washington, May 23.—With Republican senators urging a joint senate and house caucus for immediate reorganization of the congressional campaign committee to seek the reclamation of Republican power in congress next year; with Progressive Republicans conferring on plans to reconcile the divided party and members of the national executive committee assembling for a meeting here tomorrow, Washington became a beehive of Republican activity. Most significant since the defeat at the polls last fall was the conference of the Republican and Progressive senators to reinstate the Republican campaign committee, which house leaders have futilely attempted for several weeks. Thirty-one senators attended the conference presided over by Senator Gallinger and with almost unanimous approval a committee of five was appointed to confer with house leaders with a view to holding a joint caucus as soon as possible to clear away the party difficulties.

It was the prevailing opinion of the senatorial conference that the campaign committee should be reorganized at once, with representation from the senate as well as the house, that headquarters should be established, a publicity campaign inaugurated and definite campaign policies outlined as early as possible.

Progressives to Outline Wishes.

The conciliators appointed as a result of the Chicago Progressive conference a few weeks ago met with Senator Cummins today to plan for presentation of their plan to the national executive committee to meet tomorrow.

The committee will outline to the executive committee the desires of the Progressive Republicans for a convention this fall to reorganize the party, and for its machinery relating to the selection of delegates and conduct of contests.

In line with these ideas, Senator Sherman of Illinois would provide that delegates to the national conventions of all parties be elected at primaries.

Under its terms the delegates would be chosen according to the vote cast at the preceding election for candidates of the respective parties, and state primary laws would govern.

PROBE DISHWASHERS' WAGES

St. Louis Civic Uplift Club Pays Women Five Dollars a Week.

St. Louis, May 23.—The senate wage investigation committee inquired into the wages paid to women dishwashers employed at the City club, a social organization. Floyd J. Sloan, manager of the club, testified that he did not concern himself as to the personal welfare of the dishwashers. The club, he said, has a membership of 1,000 business and professional men and its civic purpose is the general betterment of mankind.

"Being a philanthropic organization," asked Lieutenant Governor Painter, "did your organization never consider the welfare of the women employees?"

"No, sir," was the reply.

"And that is a club where the president, vice president, members of congress and other distinguished visitors are invited to make addresses?"

"Yes."

"What do you think would be a fair price for a self-supporting woman to earn?"

"Seven fifty a week."

"And you pay only five?"

"Yes, but we give them two meals of better food than they could afford to buy themselves."

"These diswashers are nothing to you but so much flesh and blood that you can buy for so much a day?" asked Senator Wilson.

"Yes," replied Sloan.

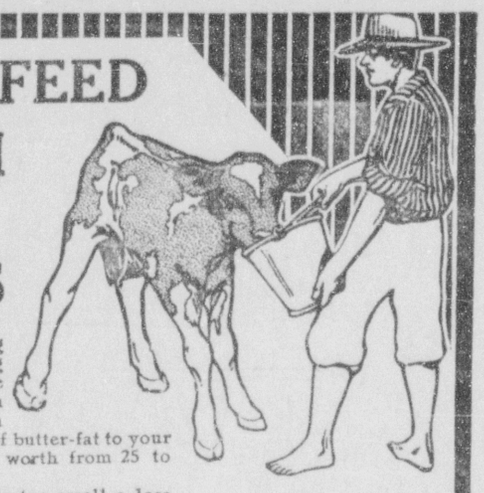
DON'T FEED CREAM TO THE CALVES



If you are skimming your milk by any setting or dilution method or are using an inferior or worn out cream separator you are surely feeding a lot of butter-fat to your calves and pigs that is worth from 25 to 30 cents a pound.

You may think this is too small a loss to amount to much, but when you figure that it happens twice a day, 365 days a year, you will find that a De Laval Separator would save its cost every six months over any kind of "gravity" skimming and every year over any inferior or worn out separator.

Get a clean skimming DE LAVAL Cream Separator

as soon as you can and get all the money that is coming to you from the product of your cows.

We can make you a liberal allowance for your present separator, if you have one, and, if more convenient for you, can also arrange for a partial payment at time of purchase and balance on easy payments.

If you want to see for yourself just how much more cream you can get with a De Laval let us set up a machine for you and have you try it out for yourself. Just 'phone or drop us a postal and we will be glad to bring a machine out to your place.

PROTESTS AGAINST INCOME TAX FAIL

No Changes Likely to Be Proposed by Democratic Caucus.

Washington, May 23.—No amendment to the income tax section of the Underwood tariff bill is likely to be proposed by the senate committee or Democratic caucus, according to an announcement by leaders who have consideration of that part of the bill in hand.

The committee room occupied by Senators Williams, Shively and Gore, who have charge of the income tax section, is piled high with protests and suggestions from many sources, but the measure is believed to have been well handled in the house and the objections made to it in its original form are thought to have been sufficiently met by amendments passed by the house.

Among the loudest protests coming now are those from mutual insurance companies conducted for profit, but the house amended the original bill as relating to insurance companies and insurance policies and the senators on the finance committee after a study of the bill believe that it is sound. Complaints from railroad and other holding companies that the law will tax them twice on dividends paid, are reported to have been held unsound by members of the committee.

Objects to Insurance Feature.

Omaha, May 23.—"Without attacking the principle of the income tax, which has been accepted and ratified by the people, the insurance features of the Underwood bill should be changed so as to make it perfectly clear and understandable," according to Ralph W. Breckenridge, chairman of the insurance committee of the American Bar association.

Nation Asked to Sue Missouri Pacific.

Washington, May 23.—Representative Neeley of Kansas has submitted to Attorney General McReynolds a formal request that the government proceed at once to collect from the Missouri Pacific railroad $43,362,346 due the government for subsidized bonds advanced to aid in the construction of the central branch of the Missouri Pacific railroad in Kansas.

How Any Woman Can Cure Indigestion.

Most stomach remedies are makeshifts—they give relief but afterward the stomach is just as weak, just as unable to digest the food as it was before.

Women especially should not depend on relievers only. MI-O-NA Stomach Tablets not only give prompt relief but they put strength and elasticity into the stomach walls and cause the digestive juices to act naturally.

They do more; they force the digestive organs to supply the blood with pure nourishment which is carried to the muscles, nerves, brain and skin. Result: healthy muscles, strong nerves, clear head, and clean skin. Orear-Henry Drug Co. guarantees MI-O-NA Stomach Tablest—50 cents.—Advertisement.

FRECKLE-FACE

Sun and Wind Bring Out Ugly Spots, How to Remove Easily.

Here's a chance, Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable dealer that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of othine—double strength from your druggist and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask the druggist for the double strength othine as this is the prescription sold under guarantee of money back if it fails to remove freckles.

Miss Eva Davis went to Bolckow Friday morning, where she has charge of a music class on Fridays and Saturdays.

ZEMO is not a greasy ointment or paste, but a clean, antiseptic solution applied to the skin. Try a bottle today—end your torture.

"ZEMO will cure any case of ezema if used according to directions." Dr. G. H. Johnson, Quannah, Texas.
